April 2014

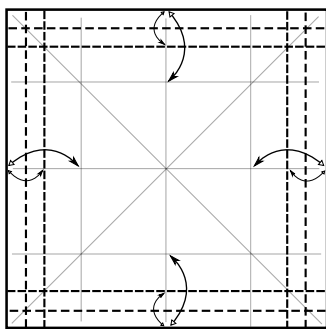

J'ai trouvé ce lièvre l'année dernière à Nieuwendam (Amsterdam Nord), Il y a pleins de lapins dans les parcs publiques, c'est cool car on peut les approcher facilement pour prendre des photos par exemple.

Je croyais que les lapins et les étaient des rongeurs mais se sont des Lagomorphes.

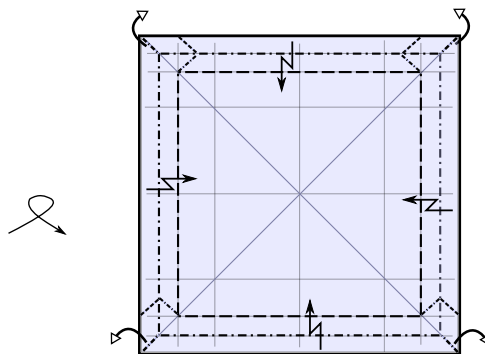

J'aime le coté "cartoon" de ce lièvre ses longues oreilles, sa tête façon Peterpaul Forcher et sa position, le pantalon me fait penser au lapin dans Alice au pays des merveilles; Joyeuses Pâques

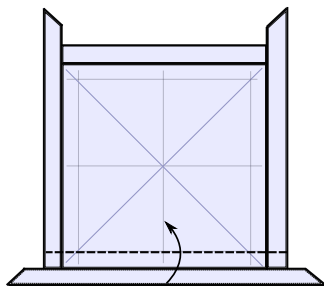

1. Pre-crease diagonally and horizontally.

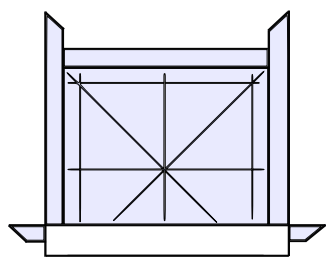

2. Further pre-crease corners. Turnover.

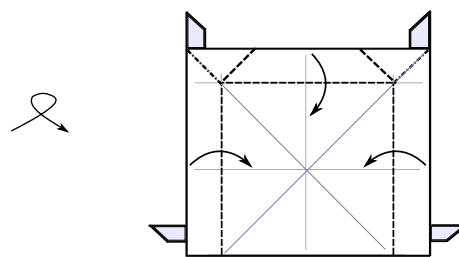

3. Crimp fold corners. Point top tips upwards and bottom sideways.

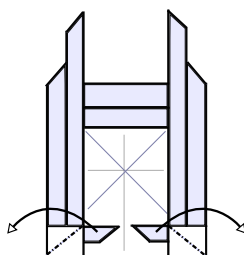

4. Valley fold up along existing crease.

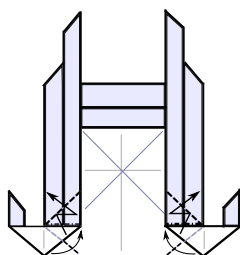

5. View after step 4. Turnover.

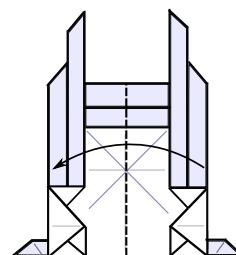

6. Fold along existing creases.

7. Fold foot tab outwards.

8. Fold and crimp fold for legs.

9. Fold model in half.

Continued ...

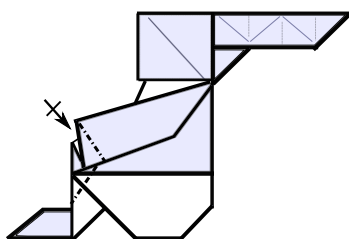

10. Fold top part down on both sides.

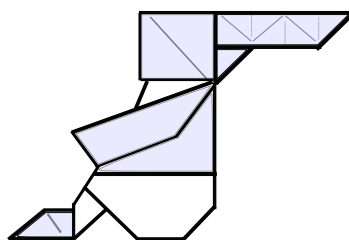

11. Pull out hidden paper on top to make the head. Crimp and valley for the arms on both sides.

12. Crimp fold to shape arms. Inside reverse fold the bottom part.

13. Shape the hands and legs by doing inside reverse folds.

14. Completed.
